

VC750 Rip-Cut

The must have blade for any building site.

- Tree Roots & Soil • Railway sleepers
- Wood shuttering • Scaffolding boards
- Timber Fence Posts • Wooden Decking
- Soft Brick/Block • Pallets • Asphalt
- Plastics • Soil • Rubber

“ The VC750 cuts through the toughest materials, handles whatever we throw at it and comes back for more.

Great - do it all Carbide Blade, saves time, money and effort, I take it to every job! ”

Peter Symmonds,
Landscape Gardner,
Cumbria.

VC750

Cuts What Chainsaws Can't

VC 750 Rip-Cut Blade

Makes light work of Tree Roots & Soil, Small Trees, Decking, Scaffold Boards, Railway Sleepers, Timber Fence Posts, Fence Panels Chipboard, Plywood Pallets, Rubber, Soft Brick & Block, Asphalt, Plastics, Flat Roofing & Flashing, Dampcoursing and shuttering.

- Cuts through all materials which chainsaws can't
- Bi-Directional - simply turn the blade around and continue cutting no need to sharpen
- Silent Centre provides a quieter more stable cut
- Carbide Cluster Segments, designed to rip through most materials
- Complete with handy Aluminium case.

Rip-Cut Blade for:

- Tree Surgeons
- Decking Contractors
- Farmers
- Forestry Workers
- Landscape Gardeners
- Pipeline Utility Contractors
- Railway Contractors
- Roofing Contractors
- Dampcoursing Contractors
- Local Authorities
- Environmental Agencies
